- As a dynamic and innovative Flutter Developer, I excel in delivering cutting-edge mobile applications that enhance user experience and functionality across diverse sectors.
- My deep technical expertise, coupled with a rich portfolio of projects in various domains, positions me as a versatile and effective problem-solver. Known for tackling complex challenges, I blend strategic insight with technical skill to drive significant advancements in application development.
- Committed to staying abreast of the latest technology trends, I am well-prepared to contribute to teams seeking innovative solutions in a rapidly evolving digital landscape.

Personal Details

Birth Date: 1996-01-02

Eligible to work in United Arab Emirates: Yes

Industry: Software Development

Work Experience

Flutter Developer

StartTech - Dubai

October 2022 to December 2023

- Leading the Flutter team at StartTech in Dubai, UAE, I have honed my expertise in driving projects from conception to deployment, ensuring the delivery of high-performance and scalable mobile applications.
- Oversaw and assessed the testing phase for approximately 100 candidates across 5 countries, strategically identifying and selecting the most qualified individuals for Flutter developer roles within the company.
- Demonstrated ability to efficiently evaluate and finalize projects, successfully completing 80 percent of them ahead of their deadlines. This achievement reflects my commitment to ensuring quality standards are consistently met.
- My role involves collaborating with computer engineers to innovate and conceptualize new applications, managing Agile teams proficiently using Jira software, and ensuring the applications optimal performance and scalability.
- My proactive approach to bug fixing, feature enhancements, and performance optimization has consistently led to the development of robust and user-friendly applications.
- Ensure the performance, quality, and responsiveness of applications and Optimize application for maximum speed and scalability.
- Troubleshoot and debug issues, conduct code reviews, and provide constructive feedback to team members.
- Experience in deploying apps on both the AppStore and Google Play, it showcases my comprehensive understanding of the application lifecycle, which is crucial in today's dynamic tech landscape.

Flutter Developer (remote)

Cogent Softech - Detroit, MI

June 2021 to May 2022

- As a skilled mobile application developer, I excel in enhancing app functionality, user experience, and performance.
- My expertise includes optimizing apps for maximum speed and scalability, troubleshooting, and debugging.
- I'm proficient in deploying apps to both the AppStore and Google Play, demonstrating a comprehensive grasp of the application lifecycle.
- My approach emphasizes teamwork through effective code reviews and collaborative feedback, fostering an environment of continuous improvement and innovation.
