## SUMMARY

Mobile Developer with 6+ years building and shipping high-performance iOS/Android apps using Flutter & Dart. Strong in API integration (REST/GraphQL), real-time features (Socket.IO), state management (Bloc/Provider/Riverpod), Firebase, payments, clean architecture, CI/CD, and performance optimization in Agile teams.

## SKILLS

- Mobile: Flutter, Dart, iOS/Android, Swift, SwiftUI, Clean Architecture
- State Management: BLoC, Riverpod, Provider
- Networking & Realtime: REST, JSON, WebSockets/Socket.IO
- Security: Auth (JWT/OAuth), Keychain/Keystore, SSL pinning, encryption, OWASP Mobile Top 10
- Storage: Hive, SQLite, SharedPreferences
- Testing & Quality: Unit/Widget/Integration tests, TDD, Crashlytics
- CI/CD & Release: Git, GitLab CI/GitHub Actions, App Store & Play Store, signing/versioning

## EXPERIENCE

**Herogram - Dubai**

03/2024 - Present

**Senior Mobile Developer | Flutter & iOS (Swift / SwiftUI)**

Mobile lead responsible for end-to-end feature delivery, sprint planning, technical ownership, and cross-functional coordination (AI, backend, design) for production mobile applications.

Accomplishments:

- Led the end-to-end mobile app development lifecycle, including sprint planning, feature delivery, and coordination with design, backend, and AI teams.
- Collaborated with cross-functional teams to deliver high-quality applications for iOS and Android while maintaining clean architecture and scalable code standards.
- Reduced development time by 20% through optimizing workflows, improving code reusability, and enforcing best practices across Flutter and native iOS projects.
- Developed and integrated AI-powered features using both cross-platform and native implementations, increasing user engagement by 25%.
- Designed and implemented secure payment systems (Stripe, Apple Pay, Google Pay, In-App Purchases) in both Flutter and SwiftUI, achieving 100% transaction reliability.
- Applied Agile methodologies to ensure consistent delivery, achieving a 98% on-time completion rate across assigned tasks and releases.
- Led the app deployment and release process for Google Play and Apple App Store, maintaining compliance and achieving a zero rejection rate.
- Optimized app performance across Flutter and native iOS codebases, reducing load time by 30% and improving responsiveness.
- Improved code stability by writing modular, maintainable components in both Dart and Swift, reducing bug reports by 40%.
- Proactively resolved technical blockers and improved team productivity by 15% through better prioritization and early issue detection.
- Applied TDD practices and automated testing in both Flutter (widget/integration tests) and iOS (XCTest) to improve code quality and reduce defects.

**StartTech - Dubai**

**10/2022 - 12/2023**

**Senior Flutter Developer**

Leading the Flutter team at StartTech in Dubai, UAE, I have honed my expertise in driving projects from conception to deployment, I maintain a direct line of communication with the (CTO) to effectively manage project analysis. This collaboration is pivotal in preparing and delegating tasks, allowing the team to efficiently commence work on projects from the ground up.

Accomplishments:

- Oversaw and assessed the testing phase for approximately 100 candidates across 5 countries, strategically identifying and selecting the most qualified individuals for Flutter developer roles within the company.
- Demonstrated ability to efficiently evaluate and finalize projects, successfully completing 80 percent of them ahead of their deadlines.
- Led a team of 4 developers, spearheading the development of applications from inception to launch, ensuring high-quality deliverables and adherence to project timelines.
- My role involves collaborating with computer engineers to innovate and conceptualize new applications, managing Agile teams proficiently using Jira software.
- My initiative-taking approach to bug fixing, feature enhancements, and performance optimization has consistently led to the development of robust and user-friendly applications.
- Implemented Unit Testing and Integration Testing to ensure robust, reliable app performance and minimize production bugs.
- Ensured the performance, quality, and responsiveness of applications and Optimize application for maximum speed and scalability.
- Troubleshoot and debugged issues, conduct code reviews, and provide feedback to team members.
- Deployed apps on both the AppStore and Google Play.

**Cogent Softech - Detroit**

**06/2021 - 05/2022**

**Flutter Developer (Remote)**

Expanded my expertise in Flutter development through building features, fixing production issues, and collaborating remotely with cross-functional teams

Accomplishments:

- Led the design and development of multiple e-commerce apps using Flutter, enhancing customer engagement and streamlining online shopping experience.
- Integrated secure payment gateways (Stripe, Apple Pay, Google Pay, in-app purchases), enhancing user trust and ensuring reliable transactions.
- Worked closely with product managers, designers, and QA teams to ensure high-quality and timely delivery of app features.
- Successfully deployed 5 projects to the App Store/Google Play, demonstrating a comprehensive grasp of the application lifecycle.
- Kept abreast of the latest Flutter updates and best practices, applying new techniques to continuously improve app functionality and user experience.

**Hashtag9 - Latakia**

**06/2019 - 05/2021**

**Flutter Developer**

Delivered my first production Flutter features within 4 weeks, contributing to successful app releases on iOS and Android.

Accomplishments:

- Developed and maintained 3 Flutter mobile applications from UI implementation to production release on Android and iOS.
- Built 30+ reusable UI components and screens, improving development speed and consistency across projects.
- Integrated RESTful APIs and handled data parsing and state handling across 15+ feature modules.
- Resolved 20+ bugs per release cycle, improving stability and reducing user-reported issues.
- Optimized app performance by reducing unnecessary widget rebuilds, improving screen responsiveness by ~25%.

---

## EDUCATION

**Tishreen University - Latakia ,Syria 09/2014 - 09/2020**  
Bachelor's Degree (B.Sc.) in Computer Engineering and Automatic Control

---

## CERTIFICATIONS

The Complete Flutter Development Bootcamp with Dart

---

## LANGUAGES

**Arabic:** Native

**English:** Fluent

---

## PERSONAL DETAILS

**Date of Birth:** 02/01/1996

**Marital Status:** Married

**Location:** Dubai, UAE

## COMMUNICATION SKILLS

- Exceptional communication skills honed through collaborative efforts within cross-functional teams. Proficient in deciphering and analyzing intricate business requirements by fostering teamwork dynamics. Demonstrated leadership within the applications team, showcasing effective communication as a cornerstone for successful project execution.
  - Proficient in expressing complex ideas and technical concepts in a clear and concise manner, ensuring effective communication across diverse team members.
-
